(microprocessor or microprocessor) AND (temperature

Search Summary

microprocessor: 15 occurrences in 14 patents.

microprocessor: 21274 occurrences in 11520 patents.

(microprocessor OR microprocessor): 11527 patents.

temperature: 213277 occurrences in 110403 patents.

thermal: 65893 occurrences in 38428 patents.

(temperature OR thermal): 137904 patents.

((microprocessor OR microprocessor) AND (temperature OR thermal)): 888 patents.

threshold: 25894 occurrences in 14234 patents.

((microprocessor OR microprocessor) AND (temperature OR thermal)) AND threshold): 28 patents.

Search Time: 2.19 seconds.

Pat. No.

Title

1. 5,680,015 Method to operate a discharge lamp, and circuit arrangement for operation of the discharge lamp
2. 5,670,708 High frequency intravascular prosthesis fatigue tester
3. 5,649,320 Automatic frequency control loop and temperature compensation for a receiver
4. 5,642,388 Frequency adjustable PLL clock generation for a PLL based microprocessor based on temperature and/or operating voltage and method therefor
5. 5,630,212 Microwave radio system with software configuration of operating parameters
6. 5,629,708 GPS receiver having an initial adjustment for correcting for drift in reference frequency
7. 5,619,430 Microcontroller with on-chip linear temperature sensor
8. 5,594,453 GPS receiver having a rapid acquisition of GPS satellite signals
9. 5,593,498 Apparatus for rotating a crucible of a crystal pulling machine
10. 5,592,827 Temperature controlling method of refrigerator using microprocessor
11. 5,519,265 Adaptive RC product control in an analog-signal-manipulating circuit
12. 5,502,838 Temperature management for integrated circuits
13. 5,498,977 Output driver having process, voltage and temperature compensation for delay and risetime
14. 5,498,971 Method and control circuit for measuring the temperature of an integrated circuit
15. 5,491,415 Magnetic resonance scanner with improved packaging for circuitry within the magnetic field
16. 5,490,059 Heuristic clock speed optimizing mechanism and computer system employing the same
17. 5,484,400 Dual channel RF delivery system
